Other relevant documents from the NVSD [North Van School District] [Website](#) include:

[2015/2016 Capital Plan Summary](#)

Description from the NVSD website:

Taking into account the School District's Facilities Plan, as well as an emphasis on facilities' condition and seismic ratings, the [2015/2016 Capital Plan Summary](#) identifies the School District's highest priorities for major capital projects, including:

1. *The replacement of Seymour Heights Elementary School, enabling the consolidation of Blueridge Elementary School into the larger Seymour Heights Elementary School*
2. *The replacement of Queensbury Elementary School with a larger capacity, enabling the accommodation of increasing student enrolment in this area of the School District*
3. *The replacement of Larson Elementary School, enabling the accommodation of the student population in the permanent building and the elimination of portable classrooms.*

Another helpful report from the NVSD is the [2015 Facilities Plan Update](#) – presented to the Board in December 2015. Interestingly, on page 4 of this report, it states that “Several elementary schools are, or will be, underutilized: Norgate, Eastview, Lynnmour, **Blueridge, Seymour Heights, Dorothy Lynas and Sherwood Park**”. Information which we know now isn't correct, given that Blueridge has a capacity of 350 students, and currently houses 353 students.

If you'd like to get involved, join the Blueridge Public Lands Taskforce by signing up [here](#) [link no longer valid].
