

Virtual Public Information Meeting

A two-week public input opportunity will be held through the District of North Vancouver's platform. This is an opportunity for neighbours to share their feedback and ask questions to Chemtrade regarding its rezoning application for their chlor-alkali facility located at 100 Amherst Avenue, North Vancouver.

The virtual information meeting will run from Monday, October 27 through to Friday, November 7, 2025, and be available at www.DNV.org/public-meeting

In-Person Information Meeting

Chemtrade will be hosting an in-person information meeting on Wednesday, October 29, 2025, from 6:00 p.m. to 8:00 p.m. at the Holiday Inn and Suites, North Vancouver, located at 700 Old Lillooet Rd, North Vancouver, BC.

The meeting will be an open house format with information stations and staff available for questions from 6:00 p.m. to 7:00 p.m., and a formal presentation and questions from the audience from 7:00 p.m. to 8:00 p.m.

Notice for both an In-Person Information Meeting and a Virtual Public Information Meeting in Your Neighbourhood

Chemtrade is hosting both an in-person information session, as well as a virtual information meeting to present the rezoning application regarding its facility, located at 100 Amherst Avenue, North Vancouver.

This information is being distributed to the owners and occupants within 375 metres of the proposed rezoning site in accordance with District of North Vancouver policy.

Virtual Information Meeting:

October 27, 2025 – November 7, 2025

Please visit www.DNV.org/public-meeting to access the virtual two-week meeting.

In-Person Information Meeting:

Wednesday, October 29, 2025

6:00 p.m. – 8:00 p.m. (presentation to begin at 7:00 p.m.)

Holiday Inn and Suites, North Vancouver, located at 700 Old Lillooet Rd, North Vancouver, BC.

The Proposal:

Chemtrade's facility in North Vancouver produces up to 70 per cent of the liquid chlorine used to treat drinking water in BC and Alberta. This equates to 40 per cent of available liquid chlorine in Canada.

Chemtrade has proposed several major capital improvements aimed at increasing safety and reducing risk for the community. In order to move forward with these projects and to have the production of liquid chlorine listed as an allowable activity on its land, Chemtrade needs the District of North Vancouver's approval to amend its prohibited uses regulations in relation to this property. All other zoning regulations related to this property will remain unchanged.

Proposed safety improvement projects, aimed at improving safety and reducing risk to the community to at or near the property line
